A REPRIEVE .- We do not refer to a reprieve from Capital Punishment. There is a slow to ture trob-which a respite is equally desirable. We refer to dyspepsia—a word in which all the horrors of indidyspepsia—a worm in which an the norrors of indi-gestion are summed up. To the sufferers by this painted and harraesing disease, we can hold out not only bright hopes, but the cravality of immediate relief and permanent cure. There is a tonic, certial and alterative principle in Hoolland's German Bitters, which inevitably arrests and changes the morbid action of the stemack and the secretive organs, removes the disease, and restores to health.
